IT IS TIME TO PUSH!

Dr. Isaac O. Fayomi

GREETING FRIENDS,

Sweet adventure in life comes with understanding time and seasons, which are crucial to glorious and triumphant living. However, not everyone recognized this great mystery. Many jokes with time and get jilted; great numbers of persons play with it and are push out of the race.

Friend, we are in the era of planting, and planters are pushers. They don't wait for anyone to tell them that it is time to irrigate or weed out the unwanted plant. They know the season by the understanding bestowed to them.

And of the children of Issachar, which were men that had understanding of the times, to know what Israel ought to do; the heads of them *were* two hundred, and all their brethren *were* at their commandment.

1 Chronicle 12:32

Therefore, it is not enough to have a vision, plans, dreams, and big goals, but a careful understanding of planting and pushing time is required.

So, we are in the season of planting and pushing your pursuit. You can't go this year without a pushing strategy, pushing formulas, and pushing keys.

While the earth remaineth, seedtime and harvest, and cold and heat, and summer and winter, and day and night shall not cease.

Genesis 8:22

All you need to do beginning from this month is to plant anything you can plant, invest anything you can invest and push anything you can push.

There are many conceive visions and great dreams that have gone down to the drain for lack of push factor. It is time you make your vision count; don't keep it, push it. Please don't waste your time not asking what you don't know when you have the opportunity to learn; it is wise to ask to know.

Then the king consulted the wise men who knew the times, for it was customary for him to confer with the experts in law and justice

Esther 1:13

The making of any great man or woman is in the move he or she made; the push he or she pushes and the fight he or she fights. All through life practical experiences, people who have understanding of their times to push are progressive entities. These great fellows' commands great exploit because they know what to do and when to do them.

Understanding time is fundamental in the race of life, and this is a prerequisite for higher flight to destiny. Therefore, no one jokes with the time to push and jet out into the future in color.

Having a clear understanding that everyday life comes with everyday push will give you positive energy toward achieving the great feat you've long desire. The masterpiece of creation that we all are enjoying today is a function of God's push. That is, the picture of creation is a picture of the push factor! God saw the earth is void; He pushes until the void is voiceless.

Folks, every void has a voice that signifies the dark part of our life, such as stagnation, struggles, and setbacks, but void becomes voiceless when light brings prosperity, promotion, and progress!

When God wants to cause change, "He moves" in other words, "He Pushes".

And the earth was without form, and void; and darkness was upon the face of the deep. And the Spirit of God moved upon the face of the waters

Genesis 1:2

Time is no respecter of persons but a respecter of movers, pushers, shakers, and igniters. Time is not a respecter of persons but a transitional tool of destiny from a person to a personality of envy.

So, it is your time to move and push. Without a moving, forget the making; without the pushing, forget the progress. Only people who make moves make news.

No doubt, 80% of people have big dreams, 15% are planters, and 5% are pushers.

It is not enough to have a vision; much more is the value of responsibility required to seal the future we have ever desired. It is time to think big and push big. It is time to dream big and dare big. There is no time to wait for anyone; neither is the journey to great tops are in a group. Say to yourself, no more delay, no more procrastination, my world is in my hands, and I am winning it through by pushing all push.

I know someone is saying, Dr. Isaac, I have push before, and it doesn't work. I have gotten to my limits, and I am no more going. Well, it is your world, and it is in your hands; however, you have to stop condemning your little effort and start commending your little effort. Nothing ever happens to you that has never happened for your good. If we can think and relax, we will see they've happened for our good.

Every limits breaker is a self-pushers; they don't see limits; they push to break limits on their parts.

Through my little experience in life, I have realized that beginning with one best is the best way to go on any journey. Someone once said what you do with the first; determine how the end will look. Push from now, and soon the rest will be a story. Undoubtedly, we might meet block roads, go-slows, irregular patterns, curve paths, potholes, and delays of all kinds, but as long as it is the way, we must embark on the journey with an attitude never to give up.

Hindrances against your all wins

1. Scared to push

Friends, many are afraid to step out. You must not be fearful of facing the unknown. You must not be tired to try again and again, even in the face of challenging trials. No incredible journey is without significant obstacles, but our resilience and push character make a unique change after all.

2. High expectation

Another challenge with many people is a high expectation of great personality to help them push their vision, plans, and goal. This habit kills dreams! Folks, you might be disappointed because they have their challenge and intent that have been desperately pushed daily. So, you have to start with yourself, doing the little at your bit.

Don't go slow this time, don't sleep off this time, neither is it time to depend on anyone. Push your push, push your worth. Go after people who can add value to you and your goal without been a liability to them. Note, what you are driving is what you are investing in. You must not be so tired after getting this far.

3. Trying to prove a point.

Anything that doesn't have a future doesn't need to be part of you. There is no need to prove a point; push your world. There are dead good dreams by great dreamers for lack of push influence.

I have often say that ideas can be made idle if it is always in its ideal states, and a man or woman in their ideal state might not be able to make maximum impact to him or herself talkless of his or her generations. So, push your ideal state idea until it begins to impact your world.

The truth is that nothing is too big that you can't push. Big dreams need a big push!

4. Stop waiting

A few years ago, I traveled out of the country for a while. And on my returns, a young brother came to me and said, sir, I have so and so idea. He itemized the idea with adequate resources that is good to behold. Then I ask him what you are still waiting for? He replied I was waiting for you to return. I was surprised by my own opinion. I understood his plight, he wanted to get it right, and he wanted a blessing. However, in reality, not everyone sees what you, so how you push your dream is left in your hand.

Many end up not achieving anything at the end of a particular season only to realize they have not pushed the great dream. Don't expect people to see you when tilling your way for a good harvest; don't expect people to appreciate you when you are laboring. Concentration is required to celebrate and create value that is worth making.

The catalyst that enhances push factor

Nothing extraordinary happens without an external effect. Four main catalysts enhance your push factor:

1. Believe:

No one will believe in your goal for you like you. You see what others don't see, so do what others don't do. Jesus saith unto him, Jesus said to Thomas, *blessed are they that have not seen, and yet have believed.*

John 20:29 paraphrase

Your vision, dreams, goals, and labour investment might not look like it now, believe in it. Do not despise it. People who despise the days of little beginning might never see a larger end. God wants to see how you work through that adventure; He wants to know how you push them through. In Zachariah 4:10, the bible says, do not despise these small beginnings, for the LORD rejoices to see the work begin, to see the plumb line in Zerubbabel's hand."

2. Be Awake:

There are great dreams swept out because of sleep. People who sleep off get their goals to slip off their hands. Friends, nothing kills faster, like insensitivity. The end time shakers are not sleepers but pushers!

And many of them that sleep in the dust of the earth shall awake, some to everlasting life, and some to shame [and] everlasting contempt.

Daniel 12:2

It is not the time to sleep; it is time to strive, push, and get back on your feet moving.

3. Be Determine:

Nothing wins rough roads like determination. It is a vital virtue for taken delivery of once part in destiny. Until determination moves from a habit into a spirit, it has low potent force. So, a determined spirit will never give up regardless of obstacles, and that is what your dreams and investment need to survive in this era. Be committed to ending well, be determined to push far beyond what you can see. It is not enough to see opportunities but push catalysts to win all paths this time. There will be a distraction by the distractors on your way to higher grounds, be determined to end well. In Genesis 26-18-26 we can see Isaac singular weapon over Philistine in his quest to get irrigation farming for was determination. *"And Isaac dug the wells again"*.

4. Be Consistent:

One of the tremendous forces to freedom is the force of consistency. Why we have not been achieving more is because we

have not been consistent in our approach. Don't stop pushing, and soon you will start gaining. Friend, there is more opportunities ahead if our consistent drive is on top gear. Every smart move and initiative require a smart push. Welcome to your world, and see you on top.
